Dear, Cavan General Hospital

Hi my name is Isabelle; I am writing to thank you for risking your lives during these difficult times. Myself and my family appreciate all your amazing work and especially leaving your own family to help others. I have family members who work on the frontline too.

I would like to give a big thanks the nurses, doctor's, physios, occupational therapists, cleaners, porters and everyone else who has been heroes and put their lives at risk to protect everyone at home. I am lucky that I have had no family or friends with the virus.

To support our country, I am following the guidelines by washing my hands regularly, staying at home and exercising with in 5km radius of my home. I have not seen my grandparents, cousins, aunts, uncles or friends in about 9 weeks and I really miss them. I am keeping in contact with everyone by texting, ringing and Face Timing. Without technology this would not be possible.

While I'm at home I have been keeping busy by baking cakes, going on lots of walks, building Lego, playing on the trampoline, playing card games like switch and 21 and learning lots of life skills like, hanging out washing properly, using the cooker, hovering and making my own meals. Me and my family have also been enjoying the lovely weather by going outside and enjoying our back garden.

I am forever grateful to the Frontline workers

Yours Sincerely

Isabelle
